in this state, according to the bls, pay rates are well above both of those estimated averages. The bill, a-4149, was combined with a senate version that passed last year.

You can find different forecasts, but for our purposes, given that this is a guess about the unknowable future (see more below), this is about as educated an estimate as we are likely to find. The trees are getting in on the action too.

Their effects on the human body, as well as being able to compute for the right medicinal dosage for...
